Orders, delivery and returns

A fictional office-supplies company. These sample policies are provided for a PDF extraction and document-search exercise.

1. Returns

Returns are accepted within 14 calendar days of delivery. Items must be unused, in their original packaging, and accompanied by a receipt or order number. Personalized items cannot be returned unless they are defective.

2. Refunds

Customers must contact support before sending a return. Approved refunds are issued to the original payment method within 5 working days after the returned item passes inspection. Original delivery charges are not refunded unless the company sent an incorrect or defective item.

3. Delivery

Standard delivery takes 3 to 5 working days. Express delivery takes 1 to 2 working days. Delivery times start when the order is dispatched. Weekends and public holidays do not count as working days.

4. Damaged deliveries

Customers should report a damaged delivery within 48 hours of receiving it and include the order number and photographs of the damage. Support reviews the report and arranges a replacement or refund when the claim is approved.

5. Support hours

Customer support is available Monday to Friday, from 09:00 to 17:00 Beirut time. The support address is support@cedar-demo.example. Messages received outside these hours are reviewed on the next working day.

6. Product warranty

Office equipment has a 12-month warranty from the delivery date. The warranty covers manufacturing defects. It does not cover accidental damage, misuse, or normal wear. Customers must provide their order number and a description of the fault.

7. Order cancellations

An order can be cancelled within 2 hours of purchase, provided it has not been dispatched. To request cancellation, customers must contact support and provide the order number. Dispatched orders follow the returns policy on page 1.

8. Missing information

These sample policies do not specify international shipping fees, bulk-purchase discounts, or support on public holidays. The document should not be used as evidence for an answer about those topics.
